LETTER OF PROJECT ALLOTMENT SPONSORSHIP

Dear,

Nachiket S Patil,

Maresh Patil,

Shreeram Bhaskar.

Hope Foundation's International Institute of Information Technology (I2IT), Pune.

We are allocating the project "Smart Road Safety System" which aims to develop a platform where users can keep a track on whether the symptoms of drowsiness are detected and raise an alarm as a safety measure to alert the user. Also there will be a Traffic Sign Detection feature which will detect the Traffic signs and notify them to driver to assist him while driving. The system needs to be made with high accuracy to get high result at minimum cost.

The objectives of this project are:

1. Track the real time drowsiness symptoms of the driver and raise alerting sound to prevent accidents.
2. Detecting the Traffic Sign and notify the driver to assist him while driving as a safety measure.
3. Provide a road safety system which will provide high accuracy to get best results at minimum cost.

Date of Allotment: 02/02/2022

Date of Completion: 10/04/2022

We wish you all the best.

Thank you,

Best Regards,

Mr. (Sumedh Khedkar)
Strategic Development & Customer Relations (CR)
